Demos and the Crank.

Professor Terry speaks a vigorous word about the crank, and a needed word. All of our cherished institu tions and pricileges have been at one time or another subjected to ridicule and censure. Even the much honored vocation of farming was once a great heresy, and the first apostle of agriculture, Zoronster, was driven from home and roundly abused. Such has been the history of all real movemen's. Even the democratic potate was a fused admission into England a little over three Senturies ago on religious grounds. ### BLAINE WAS A LIMETALLIST.

(From James G. Blaine's speech in the United States Senate, 1880.

"On the much vexed and long mooted question as to bi metallic and monometallic standard my own views are sufficiently indicated in the marks I have made. I believe the struggle now going on in this country and in other countries for a single gold standard would, if successful, produce widespread disaster in and throughout the commercial world. The destruction of silver as money, and establishing gold as the sole unit of value, must have a ruinous effect on all forms of property except those investments which yield a fixed return in money. Those would be enormously enhanced in value and would gain a disproportionale and unfur advantage over any other species of property. If, as the most reliable statistics affirm, there are nearly \$7,000,000,000 of con or bullion in the world, very equally divided be ween gold and silver, it is impossible to strike silver out of existence as money without results which will prove distressing to millions and utterly disastrous to tens of thousands

"I believe gold and silver coin to be the money of the constitution: inleed the money of the American people anterior to the constitution, which the great organic law recognized as quite independent of its own existence No lower was conferred on corgress to declare either metal should not be money. Congress has, therefore, in my judgment no power to demonstize either. If, therefore, silver has demonetized, I am in favor of remonetizing Is therefore the best time to take Hood's If its coinage has been prohibited, I am in favor of ordering it resumed am in favor of having it eularged."

Every one regretted the downpour last Sunday, which took away all the brightness of Children's Day. In all the churches the form decoration were carried out with the usual fine taste. The Old Bloomfield Church blomomed out beautifully, for this last season, before its renovation for the Centennial. The great pity was that sonshine and the expected full church did not crown the program with perfect success and happiness.

The superintendent and officers of the Sunday School of the First Presbyterian Church have planned a trolley ride for the scholars of that school and Hope Chapel. The ride is acheduled for the afternoon of the thirtieth of this month. Elizabeth will be the destination of the party, and if the day be fair the scholars are resstime, for should even dustiness threaten to mar the ride, the Traction Co. have promised to have the a trolley sprinkler precede the chartered cars and lay the dust along the route.

The novelty of such an encursion must appeal to old and young. Two gentlemen, members of the school, in addition to the conductor and mo torman, will be in charge of each car to insure perfect safety. Tickets will cost only fifteen cents, and at the end of the ride, on the return, ice cresm will be served to the members of the school on the lawn beside the church. If the day should prove stormy the ride will take place on Friday, and if the excursion is postponed the church bell will ring at about one o'clock, to give acholars due notice.
